ACAROLOGIA

A quarterly journal of acarology, since 1959
Publishing on all aspects of the Acari

Home • Latest issue • Contents • October 14, 2015

An open-access journal

Acarologia is proudly non-profit, with no page charges and free open access

Please help us maintain this system by **encouraging your institutes to subscribe to the print version of the journal** and by sending us your high quality research on the Acari.

Acarologia is published in one volume of 4 issues per year. The on-line version is **open-access** from 2010 onward.

The longest-publishing Acarology journal

Acarologia, founded in 1959 by Marc André and François Grandjean, is the first and longest-publishing journal devoted to Acarology.

Impact factor: 1.000 (2014)
ISI Rank (2014): 44/92 (Entomology).

SCImago Journal Rank (SJR): 0.433 (2014)
SJR Rank (2014): 52/124 (Insect Science).

Acarologia is indexed in Web of Science, CABs ...

An open-minded topics journal

Acarologia is a peer-reviewed journal devoted to the biology of the Acari. **Acarologia** publishes results of original and high quality research on all aspects of Acarology, including molecular biology, taxonomy, physiology, ecology, evolution, behaviour, biogeography, genetics, morphology and physiology. Applied acarology, including economic studies, plant parasites and biological control, and veterinary aspects, are also accepted. All groups within the Acari are considered.

The journal aims to promote research and spread knowledge of this important group of arthropods. Four issues are published every year.

Latest issue - 30 September 2015

-  [Effect of temperature on the development of *Eotetranychus hirsti* \(Tetranychidae\) on fig leaves](#)
Dolatyar, S., Jafari, S. and Pakyari, H.
pages: 247-254
-  [A new record and descriptions of males of two *Stigmaeus* species from Turkey \(Acari: Stigmaeidae\)](#)
Ulucay, I.
pages: 255-266
-  [A new species of *Notogalumna* \(Acari, Oribatida, Galumnidae\) from the oriental region with a key to known species](#)
Ermilov, S.G. and Corpuz-Raros, L.
pages: 267-276
-  [Allogalumna rugata, a new species of oribatid mite from China \(Acari, Oribatida, Galumnidae\)](#)
